Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your StarType: The Compassionate

Taylor Alison's StarType, is the Grand Trine, is the archetype of the care giving StarType family, a classic pattern in the history of astrology, and one that prefers the role of "The Lover" in relationships, the provider of care and affection. The most compassionate of all StarTypes, this pattern is considered the most Bodhisattva-like.

Taylor Alison has powerful conceptual abilities, and depends on her mental powers to make her way through life. She thinks before she acts, and usually plans things out far in advance, sometimes preferring to read more about something than to actually do and experience it.

And she has clear vision, able to get the big picture, to see the forest AND the trees, right off.

Your Rising Sign: Pisces

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

Your manner is very gentle and peace loving. Your sensitivity and concern for others comes across and is communicated in everything you say and do. You give others the sense that you are long-suffering and capable of much personal sacrifice.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

The Sun

You are always out-front, frank, and even rough at times -- getting to the heart of any subject. On the move, you are a traveler of both the world and the mind -- philosophy and religion. Outgoing, friendly, and well-liked, you may enjoy sports and physical activity. Not petty, you like grand themes and big gestures.

Sun in Sagittarius

You naturally gravitate toward positions of power and authority. Others see in you great practical ability and accept you as a leader or authority figure very easily. Your career may be very important to you, even at the expense of home life.

Sun Conjunct Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

The Moon

You can sense and understand the mood and feelings of others, and are excellent at counseling and nursing. You are quite emotional, and have a natural sense of that which pleases, knowing the mood of the crowd. You can be overly protective (or protected), but are good at parenting and creating a home. Quite domestic.

Moon in Cancer

It may be hard to find support for your ideas, and arguments may arise with those who oppose or challenge your way of thinking. You could find yourself thinking and presenting ideas that are out of place or don't go along with the current mood. Since you don't always pay attention to your own moods and feelings, some of your ideas may not even feel right to you. You could say things that upset or challenge those around you. You may be great at argument.

Moon Opposite Mercury

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. Everyone sees you as genuine and giving and tends to trust you on sight. Your ability to counsel others is excellent, and you are always sought out for advice. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

Moon Conjunct Jupiter

Your approach to discipline and responsibilities does not exactly cater to the moods and feelings of others. You have little patience for sentiment, tradition, and history. Your lack of control over your own feelings can result in real arguments. One result is that you may not always have the support of those around you. You sometimes have to go it alone.

Moon Opposite Saturn

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposite Uranus

The image you project of what is perfect or ideal from your point of view may find little support at home. Others could oppose or block you in these matters, and maintaining your dreams may be at the price of your friends and surroundings. You may find your background, environment, and all that is traditional less than ideal, even flat and uninspiring.

Moon Opposite Neptune

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

Mercury

You have a very clear and analytical mind and are able to grasp ideas and put them to work at once. You have good management and supervisory ability. You use cold reason, are not much moved by emotions, and are always pragmatic. You prefer concrete subjects to "grand ideas" and flights of fancy. Manipulative too.

Mercury in Capricorn

You may have to learn to think with more care when it comes to making career moves -- decisions that affect your life's direction. The fact is that you spend a lot of time on thoughts that have nothing to do with the real world. Many of these thoughts and ideas tend to be impractical and prove more trouble than they are worth. You are better off seeking advice than giving it, at least when it comes to matters of vocation.

Mercury Opposite Jupiter

You are very deliberate when it comes to words, to what you say and think. When you concentrate, you always come up with what is essential to the matter at hand, ignoring all else. You're anything but "flip," and your more serious approach to ideas, while welcome when there is mental work to do, may not always be appreciated when others are in more social moods. You are so serious. Philosophy, religion, and the like are natural for you.

Mercury Conjunct Saturn

You do a lot to fulfill the popular stereotype of the "genius," so obviously brilliant are some of the things you think and say. You have such an outpouring of insights that having a conversation with you can be a real experience. Your mind works like lightning. Words and thoughts sort of shoot out, illuminating whatever subject is at hand. You really do have very different ideas and ways of expressing them. There may also be a sustained interest in communication, computers, electronics, and all that is electrical.

Mercury Conjunct Uranus

You have more than just the gift of gab. Your words and ideas can transport and enchant listeners, carrying them beyond the world as they know it into the world as they wish it could be. Your imagination and sense of what connects all of life is felt in your speech and in the way you communicate. You love a good story, and a sense of the mystical pervades every one you tell. You are at home in the world of myths and dreams, for your mind soars on wings of the imagination.

Mercury Conjunct Neptune

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Venus

Marriage for convention's sake, if at all, is your motto. Let's not get too personal or emotional. A friend's friend. You love to work for a great cause or purpose, and a better world is the place to be. You appreciate what's fair and democratic, and feel most happy in a group or community.

Venus in Aquarius

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

Mars

You possess a powerful, persistent drive and are a hard, steady worker. Others may find you deep, with a sense of mission and mystery. You are willing to do work others would not go near, quietly bending things to your will, having it your own way. You have strong sexual energy, too, and enjoy getting down to the nitty-gritty.

Mars in Scorpio

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

Jupiter

A career in big business is possible, for you like broad, secure foundations. It is important for you to feel safe, and you are very domestic -- family, home, and kids. Supportive, nurturing, you use your intuition and gut instinct over thought and deliberation. Fiercely loyal, you are a street fighter when protecting your own interests or those you love. Very dependable.

Jupiter in Cancer

Your career decisions suffer from a lack of organization and self-discipline. "Who needs it?" is your motto. You set yourself against whatever authorities present themselves to you, and this can have major implications. You won't submit to any training and thus lacking the determination you need to establish a right livelihood. Left to your own devices, you tend to take a course that avoids responsibilities and obligations, living as if there were no tomorrow.

Jupiter Opposite Saturn

You like your career straight and conventional, and you defy anyone who would suggest otherwise. The well-trodden path is where to find you. You go out of your way to conform, and avoid the new, novel, and unconventional with great vigor. Confrontations with people and things that don't conform are common, not to mention arguments along these lines. That which won't go along is opposed.

Jupiter Opposite Uranus

Your vocation may be less than ideal and not what you dreamed it could be. Chances are that you have chosen the course you are now on, ignoring other more imaginative solutions. If you have abandoned your dreams, the likelihood is that you did it deliberately and with the eyes open. You may fear being carried away by your imagination, or perhaps you see a more ideal existence as some form of escape. You worry about being deceived or seduced by your own dreams.

Jupiter Opposite Neptune

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

Saturn

Organizational problems. You have a tendency to avoid taking charge or responsibility and may need to accept a more disciplined and serious approach to life. Learn to enjoy hard work. Persevere. Learn how to manage. You may feel uncomfortable when in the public eye.

Saturn in Capricorn

You may have difficulty letting go and being imaginative. Your no-nonsense, practical approach makes subjects like the unity of life, ideals, and dreamy stuff hard for you to take. However, your dreams and ideals are very important to you, and you methodically go about putting them into practice. You have little interest in the spirituality and psyches that are rampant today. You see through that and value the essential unity behind all religions. You could bring imagination and religious understanding to physical and scientific studies.

Saturn Conjunct Neptune

When it comes to psychology you have great penetration, and always understand how to get down to the core material. You enjoy working with sensitive and vulnerable areas of the mind, searching out and defining points of transformation, areas for growth. You could teach and instruct others in these areas. You aren't afraid to get into the most sticky situations, and you always come up with the essence of the matter at hand.

Saturn Sextile Pluto

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

Uranus

You are innovative in the political and business arena. You find new ways to manage and control things and people. Ever practical, you come up with new or alternate forms of management -- breakthroughs in top-level management and corporate styles. You bring new life to conservative traditions. Your emotions are very staid.

Uranus in Capricorn

You have real vision and insight into the unity that ties this world together. Your brilliant imagination and enchanting manner transport all who meet you beyond the mundane and into the extraordinary regions where you spend a lot of your time. You are a seer, in the true sense of the word, and possess a waking experience of that part of us that is mystical and dreamlike. You find new ways to bring people together, to unify situations. Unusual music.

Uranus Conjunct Neptune

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Neptune

The practical is the ideal. Form follows function. You have a dream of being in control -- the puppet master. You are very interested in tradition and tend to be dignified and conservative. You believe in an orderly society led by benevolent monarchs -- those who can see what to do.

Neptune in Capricorn

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Pluto

You tear through appearances in an effort to get beneath, behind, and at the heart or essence. You may find psychology, initiation, and mysticism, and the occult of great interest. Intense personal change and inner growth are lifelong habits.

Pluto in Scorpio

Planets in Houses

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

You look to home and family for support and encouragement. History (personal or otherwise) interests you, and you tend toward nostalgia. Security is very important and you need to have real roots in order to be productive.

Moon in 4th House

Your career may be built on your search for roots and security. You find yourself through home and family (all things domestic), and it would be excellent if you could somehow make your living in these areas.

Jupiter in 4th House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

You tear through appearances in an effort to get beneath, behind, and at the heart or essence. You may find the occult, psychology, initiation and mysticism of great interest. Intense personal change and inner growth are lifelong habits.

Pluto in 8th House

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You are direct and candid and tend to brush past appearances and settle on the truth within. Ideas -- philosophy and religion -- are what life is all about. You may travel, counsel, and be a teacher to others.

Sun in 9th House

You may end up traveling the world. An inner urge to find the very heart of truth in all things may propel you endlessly. You are very motivated when it comes to philosophies, religion, and all things essential and lasting. No superficiality.

Mars in 9th House

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

When it comes to business and career, you have a mind that just can't help but taking care of business. Your thoughts and ideas are nothing if not practical, and your clear-sightedness makes some form of management or supervision almost unavoidable.

Mercury in 10th House

You are original and insightful when it comes to practical matters -- job, career, and such. Independent, you may have an unconventional approach to work, especially regarding how you organize or manage. You may have a reputation for being different.

Uranus in 10th House

Your practical skills are linked to your almost mystical inner vision. You manifest your ideals and dreams in an organized and clear-headed manner. You would be great at giving the public a sense of the ideal via films, advertising, spiritual work.

Neptune in 10th House

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

You love community projects and group work of any kind. Your sense of values finds you on the side of altruism and humanism at every turn. You appreciate goals and efforts at the global level.

Venus in 11th House

You work hard to make your dreams and ideals a reality. You work hard at community or group work. You spare no effort here. Humanitarian goals are central to your life's work.

Saturn in 11th House

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Elements

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You experience life mostly through your emotions and how you "feel" about someone or something. Your intuition is strong and can guide you accurately in making forecasts or decisions. Your sensitivity makes you recoil from aggressive types.

Have Water

You're concerned with preserving the status quo and are stable and methodical in your ways of going on. You resist change and may have trouble getting started, but once on the move are indomitable. You mistrust that which is new or untried.

Have Earth

Your inner self-confidence may be lacking, and you could try to overcome this by defensive aggressiveness. You probably wish you had more of the self-assurance your fiery acquaintances have.

Want Fire

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

Have Cardinal

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

Want Mutable

Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a low burn rate, and this indicates a less turbulent and more straightforward life style. Your talents are self-evident and clear. They don't require training and learning on your part in order to put them to use. The particular areas of clarity follow:

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

Planets in High Focus

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You naturally gravitate toward positions of power and authority. Others see in you great practical ability and accept you as a leader or authority figure very easily. Your career may be very important to you, even at the expense of home life.

Sun Conjunct Midheaven

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. Everyone sees you as genuine and giving and tends to trust you on sight. Your ability to counsel others is excellent, and you are always sought out for advice. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

Moon Conjunct Jupiter

You may have difficulty letting go and being imaginative. Your no-nonsense, practical approach makes subjects like the unity of life, ideals, and dreamy stuff hard for you to take. However, your dreams and ideals are very important to you, and you methodically go about putting them into practice. You have little interest in the spirituality and psyches that are rampant today. You see through that and value the essential unity behind all religions. You could bring imagination and religious understanding to physical and scientific studies.

Saturn Conjunct Neptune

You have more than just the gift of gab. Your words and ideas can transport and enchant listeners, carrying them beyond the world as they know it into the world as they wish it could be. Your imagination and sense of what connects all of life is felt in your speech and in the way you communicate. You love a good story, and a sense of the mystical pervades every one you tell. You are at home in the world of myths and dreams, for your mind soars on wings of the imagination.

Mercury Conjunct Neptune

You do a lot to fulfill the popular stereotype of the "genius," so obviously brilliant are some of the things you think and say. You have such an outpouring of insights that having a conversation with you can be a real experience. Your mind works like lightning. Words and thoughts sort of shoot out, illuminating whatever subject is at hand. You really do have very different ideas and ways of expressing them. There may also be a sustained interest in communication, computers, electronics, and all that is electrical.

Mercury Conjunct Uranus

You are very deliberate when it comes to words, to what you say and think. When you concentrate, you always come up with what is essential to the matter at hand, ignoring all else. You're anything but "flip," and your more serious approach to ideas, while welcome when there is mental work to do, may not always be appreciated when others are in more social moods. You are so serious. Philosophy, religion, and the like are natural for you.

Mercury Conjunct Saturn

You have real vision and insight into the unity that ties this world together. Your brilliant imagination and enchanting manner transport all who meet you beyond the mundane and into the extraordinary regions where you spend a lot of your time. You are a seer, in the true sense of the word, and possess a waking experience of that part of us that is mystical and dreamlike. You find new ways to bring people together, to unify situations. Unusual music.

Uranus Conjunct Neptune

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposite Uranus

You may have to learn to think with more care when it comes to making career moves -- decisions that affect your life's direction. The fact is that you spend a lot of time on thoughts that have nothing to do with the real world. Many of these thoughts and ideas tend to be impractical and prove more trouble than they are worth. You are better off seeking advice than giving it, at least when it comes to matters of vocation.

Mercury Opposite Jupiter

You like your career straight and conventional, and you defy anyone who would suggest otherwise. The well-trodden path is where to find you. You go out of your way to conform, and avoid the new, novel, and unconventional with great vigor. Confrontations with people and things that don't conform are common, not to mention arguments along these lines. That which won't go along is opposed.

Jupiter Opposite Uranus

It may be hard to find support for your ideas, and arguments may arise with those who oppose or challenge your way of thinking. You could find yourself thinking and presenting ideas that are out of place or don't go along with the current mood. Since you don't always pay attention to your own moods and feelings, some of your ideas may not even feel right to you. You could say things that upset or challenge those around you. You may be great at argument.

Moon Opposite Mercury

Your vocation may be less than ideal and not what you dreamed it could be. Chances are that you have chosen the course you are now on, ignoring other more imaginative solutions. If you have abandoned your dreams, the likelihood is that you did it deliberately and with the eyes open. You may fear being carried away by your imagination, or perhaps you see a more ideal existence as some form of escape. You worry about being deceived or seduced by your own dreams.

Jupiter Opposite Neptune

The image you project of what is perfect or ideal from your point of view may find little support at home. Others could oppose or block you in these matters, and maintaining your dreams may be at the price of your friends and surroundings. You may find your background, environment, and all that is traditional less than ideal, even flat and uninspiring.

Moon Opposite Neptune

Your career decisions suffer from a lack of organization and self-discipline. "Who needs it?" is your motto. You set yourself against whatever authorities present themselves to you, and this can have major implications. You won't submit to any training and thus lacking the determination you need to establish a right livelihood. Left to your own devices, you tend to take a course that avoids responsibilities and obligations, living as if there were no tomorrow.

Jupiter Opposite Saturn

Your approach to discipline and responsibilities does not exactly cater to the moods and feelings of others. You have little patience for sentiment, tradition, and history. Your lack of control over your own feelings can result in real arguments. One result is that you may not always have the support of those around you. You sometimes have to go it alone.

Moon Opposite Saturn

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

When it comes to psychology you have great penetration, and always understand how to get down to the core material. You enjoy working with sensitive and vulnerable areas of the mind, searching out and defining points of transformation, areas for growth. You could teach and instruct others in these areas. You aren't afraid to get into the most sticky situations, and you always come up with the essence of the matter at hand.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

Your early years, until the age of 11-12, may not be very easy. You may be a more inward and insecure youngster than average. The early teens should see the end of this stage and the beginning of a much more outward and self-confident one. You will begin to sense your own strength and discover yourself at this time. What follows will be a time of learning and extending your position until around the age of 18-19, at which time you will really begin to come into your own, both in a social sense and where your career is concerned. The years from 18-26 will be very strong, during which you can do no wrong. You should rise rapidly to a position of success. After that, you will become more inward and turn away from the outer. A time for consolidation.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

On Lower Meridian: Aug 30, 2031

The dates above point to the end of a period of about seven years during which you may have been very inward and self-absorbed -- quiet, subjective years. Information that you have been examining and thinking about will now begin to take shape and prove useful to you. This next period is one of action and embarking on new projects. You will feel more and more confident and outgoing, a sense of confidence that grows stronger with each passing day. Things that may have been in suspended animation for many years will now precipitate and take on structure and shape. These next years are ones in which you should plan to work hard to bring out and give shape to the ideas you have pored over these last 6-7 years. You are beginning to really move forward now and can expect rewards to take an outward career, and social form within a few years. A growing self-confidence. In summary, from this time forward, expect a more confident, outgoing attitude, for you have brought to a close a time of inward examination and learning. A growing sense of direction and self-worth will find you reaching out and establishing yourself.

Major Transits

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

This may not be an easy time, for events and circumstances may conspire to block your sense of freedom and independence. Someone challenges your ideas, finds them unconventional. It may not be easy to find new and suitable solutions to problems now.
