Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your StarType: The Practical Mind

Here is another quite independent StarType, one with great mental powers, albeit folded in on themselves, and all converging to a single practical point, like a laser beam. Donald John's mind always has a very practical focus that cuts through a problem like the tip of a blowtorch. His very strong ability to think and focus tends to be somewhat inward oriented and almost recursive, in that his mind very much guides the hand that does the work, and with great precision.

Your Rising Sign: Leo

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You wear your heart on your sleeve and always manage to come across as confident and sure of yourself (possibly egotistical). You are very free with your emotions, which nevertheless tend to stay under your control. You are warm-hearted and effusive.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

The Sun

You love to investigate, search, and explore. You are also very communicative by any means: talking, writing, broadcasting... even by car. Always going beyond conventions into whatever's new, exciting, and spicy, you are happy when caught up in the variety and complexity of life.

Sun in Gemini

It is easy for you to work with those in authority -- those older and more experienced than you. You enjoy working with others and would make a good manager. An interest (and ability) in athletics, exercise (working with the physical body), the outdoors, and such, should be lifelong. Another form this could take is training or coaching others. You have a natural ability to express yourself and handle emotions and you may like to perform a bit. A career in one of the entertainment industries is a possibility.

Sun Sextile Mars

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter

You are unconventional, independent, and drawn to whatever is different and original in life. You hate being tied down with the drudgery of routine, preferring instead to keep your options open. You may find yourself involved in causes that go against tradition, revolutions of one kind or another -- social or political. Your friends are probably also eccentric, in particular those in authority, older persons, and men who are nonconformist. Communication, computers, electronics, and everything new-wave is what you star in.

Sun Conjunction Uranus

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

The Moon

You are even happy in austere settings, and enjoy getting back to the basics. Religion, truth, and the world of philosophy and ideas are of interest. Your love of simplicity is good for politics too. It brings out the truth and a sense of honesty in a group. You are freedom-loving, independent, and at times, even a trifle remote. You are not bound by relationships and are thus not much of a domestic.

Moon in Sagittarius

You will find yourself torn between an environment that is very comfortable and supportive versus a real need to grow, progress, and push out on your own. You are always being caught in the middle, forced to choose between surroundings that are supportive (but not progressive) and new directions that bring advancement that may be at the expense of your comfort. Getting these two opposing directions to work together may require some real compromising skills on your part. This could manifest as a love of history versus future trends, older persons versus younger, and so on.

Moon Opposite Sun

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

Moon Trine Mars

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Sextile Jupiter

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposite Uranus

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

Mercury

You sense things with the mind and understand that feelings are thoughts too. What does this or that thought mean? Where is it pointing? These are questions you ask. You use subjective rather than objective logic -- intuition and gut instinct. Poetry, music, and the arts interest you, as do psychology and the psyche.

Mercury in Cancer

You find talk of the other world, and mysticism in general, to be a real hassle. You struggle to keep this and any spiritual material at bay and, like your mind, down-to-earth and quite conventional. It may be hard for you to think about spiritual matters, much less express them in words or thoughts. You like your dreams neat and are troubled when thoughts of other lives and what-not intrude. You would rather not talk about it.

Mercury Square Neptune

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Venus

Homeward bound! With you, the domestic scene is ideal. Marriage, children, animals, gardens -- the whole works. You like to feel secure. Sensitive too. You are dependent on others and like to be taken care of, even mothered. You love music, can be very emotional, and tend to be protective.

Venus in Cancer

You value the simple life and have little use for pomp and circumstance. Your appreciation for hard work and discipline is natural and lifelong. You actually love responsibility and tend to pile on the work. Others may find you frugal or unnecessarily Spartan, but you love simplicity as much as they love opulence. You can discriminate the wheat from the chaff and put great value on organization.

Venus Conjunct Saturn

Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work.

Venus Sextile Midheaven

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

Mars

You are always center-stage and entertaining others. You have an almost fierce sense of pride and are very dramatic and expressive, sometimes forceful. You are a natural at sports, games, anything that "gets it out." Very emotional, you have strong likes and dislikes. You are good with kids, animals -- a teacher or coach. You act it out.

Mars in Leo

You are very competitive -- even pushy -- when it comes to partners and other people. You have a great social drive and love to work in a group or with close friends.

Mars Square Midheaven

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

Jupiter

You could enjoy a career working with people as a go-between, negotiator, or mediator, for you can be all things to all people -- the mirror. You are not interested in what runs deep, but prefer to control what goes on at the surface. That's enough for you. Open and not self-centered, you are a natural diplomat.

Jupiter in Libra

You have real difficulties when it comes to matters of self-discipline. Your career suffers due to your lack of training and education. You go against authority, clashing with it rather than finding a way to work with and learn from it. You end up taking an unplanned course of action that lacks any organization and seldom holds up for long. Taking the easy way out can be very painful. You come back to square one again and again.

Jupiter Square Saturn

You are independent and value freedom and nonconformity. A great problem-solver, you enjoy working out new solutions, trying new things. Your career will be anything but ordinary, and leave it to you to find unusual ways of supporting yourself. You bring a lot of mental skill and understanding to whatever you do, and could teach or help others to take a more independent approach to their life or career. You pursue electronics, computers, and the like.

Jupiter Trine Uranus

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

Saturn

You could have difficulty in letting go and feeling life, preferring instead to think about it rather than do it. Afraid of the sense world, you avoid plunging in and fear being caught or tied down. "To be or not to be..." is your question. There is a need to accept responsibility and limitations, as well as home, family, children, and such.

Saturn in Cancer

You enjoy working hard and being organized, and you exercise skill and discipline in anything that affects your career and reputation. A perfect combination for an excellent manager.

Saturn Sextile Midheaven

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

Uranus

You have brilliant insights into communications of all kinds -- computers, radio, T.V., the press, writing, and speaking. You are inventive and also have deep insights into research and investigations. You like to relax in conversations, telephone, puzzles, and making connections.

Uranus in Gemini

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Neptune

Relationships are the ideal. Non-discriminating and impersonal in scope, to you all are equal. You are seldom bound by tradition or personal ties and are not domestic. You hold the ideal vision up to the real. You open up in response to others and accept others as yourself.

Neptune in Libra

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Pluto

You are very sensitive (even vulnerable) when it comes to expressing yourself, getting it out. Periods of intense creativity enable you to go through changes and inner growth. This creative intensity is good for music, poetry, art, and such.

Pluto in Leo

Planets in Houses

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

Your career or life-path may depend on your talent for responding and making something out of ideas, insights... whatever is new and challenging. The business world may call for your ability to react and build on opportunities.

Jupiter in 2nd House

You are very idealistic when it comes to possessions, finance, and how you choose to make your living. Your response to what life offers you is always very elevated, although not always practical. This could lead to some disappointments.

Neptune in 2nd House

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You look to home and family for support and encouragement. History (personal or otherwise) interests you, and you tend toward nostalgia. Security is very important and you need to have real roots in order to be productive.

Moon in 4th House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

You are very career-oriented, and your personal reputation and honor are of the utmost importance. You possess a natural sense of organization and practical insight and may excel at managing or supervising others..

Sun in 10th House

You are original and insightful when it comes to practical matters -- job, career, and such. Independent, you may have an unconventional approach to work, especially regarding how you organize or manage. You may have a reputation for being different.

Uranus in 10th House

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Your mind runs to humanitarian values and thoughts of what could (and should) be. Ideas connected with group work and goals (making your inner vision real) are natural. You are good at putting your ideas to work in the world, making dreams real.

Mercury in 11th House

You love community projects and group work of any kind. Your sense of values finds you on the side of altruism and humanism at every turn. You appreciate goals and efforts at the global level.

Venus in 11th House

You work hard to make your dreams and ideals a reality. You work hard at community or group work. You spare no effort here. Humanitarian goals are central to your life's work.

Saturn in 11th House

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Pluto in 12th House

Elements

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

You experience life mostly through your emotions and how you "feel" about someone or something. Your intuition is strong and can guide you accurately in making forecasts or decisions. Your sensitivity makes you recoil from aggressive types.

Have Water

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

Have Cardinal

Not too centered, perhaps not always able to hang in there for the long haul. You might not make a good linebacker. You may tend to be all over the place rather than front and center.

Want Fixed

Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

Planets in High Focus

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

Mars

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

Very clear insight, even genius, when it comes to discovering or inventing things. You were born with this fully operational. It requires no teaching. Your low burn rate in this area indicates an ability in electronics, computers, and so on.

Uranus

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

Neptune

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

Pluto

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You value the simple life and have little use for pomp and circumstance. Your appreciation for hard work and discipline is natural and lifelong. You actually love responsibility and tend to pile on the work. Others may find you frugal or unnecessarily Spartan, but you love simplicity as much as they love opulence. You can discriminate the wheat from the chaff and put great value on organization.

Venus Conjunct Saturn

You are unconventional, independent, and drawn to whatever is different and original in life. You hate being tied down with the drudgery of routine, preferring instead to keep your options open. You may find yourself involved in causes that go against tradition, revolutions of one kind or another -- social or political. Your friends are probably also eccentric, in particular those in authority, older persons, and men who are nonconformist. Communication, computers, electronics, and everything new-wave is what you star in.

Sun Conjunct Uranus

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscurity often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You will find yourself torn between an environment that is very comfortable and supportive versus a real need to grow, progress, and push out on your own. You are always being caught in the middle, forced to choose between surroundings that are supportive (but not progressive) and new directions that bring advancement that may be at the expense of your comfort. Getting these two opposing directions to work together may require some real compromising skills on your part. This could manifest as a love of history versus future trends, older persons versus younger, and so on.

Moon Opposite Sun

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposite Uranus

You are very competitive -- even pushy -- when it comes to partners and other people. You have a great social drive and love to work in a group or with close friends.

Mars Square Midheaven

You find talk of the other world, and mysticism in general, to be a real hassle. You struggle to keep this and any spiritual material at bay and, like your mind, down-to-earth and quite conventional. It may be hard for you to think about spiritual matters, much less express them in words or thoughts. You like your dreams neat and are troubled when thoughts of other lives and what-not intrude. You would rather not talk about it.

Mercury Square Neptune

You have real difficulties when it comes to matters of self-discipline. Your career suffers due to your lack of training and education. You go against authority, clashing with it rather than finding a way to work with and learn from it. You end up taking an unplanned course of action that lacks any organization and seldom holds up for long. Taking the easy way out can be very painful. You come back to square one again and again.

Jupiter Square Saturn

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You are independent and value freedom and nonconformity. A great problem-solver, you enjoy working out new solutions, trying new things. Your career will be anything but ordinary, and leave it to you to find unusual ways of supporting yourself. You bring a lot of mental skill and understanding to whatever you do, and could teach or help others to take a more independent approach to their life or career. You pursue electronics, computers, and the like.

Jupiter Trine Uranus

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

Moon Trine Mars

You enjoy working hard and being organized, and you exercise skill and discipline in anything that affects your career and reputation. A perfect combination for an excellent manager.

Saturn Sextile Midheaven

Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work.

Venus Sextile Midheaven

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Sextile Jupiter

It is easy for you to work with those in authority -- those older and more experienced than you. You enjoy working with others and would make a good manager. An interest (and ability) in athletics, exercise (working with the physical body), the outdoors, and such, should be lifelong. Another form this could take is training or coaching others. You have a natural ability to express yourself and handle emotions and you may like to perform a bit. A career in one of the entertainment industries is a possibility.

Sun Sextile Mars

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

Your early years, until the age of 11-12, may not be very easy. You may be a more inward and insecure youngster than average. The early teens should see the end of this stage and the beginning of a much more outward and self-confident one. You will begin to sense your own strength and discover yourself at this time. What follows will be a time of learning and extending your position until around the age of 18-19, at which time you will really begin to come into your own, both in a social sense and where your career is concerned. The years from 18-26 will be very strong, during which you can do no wrong. You should rise rapidly to a position of success. After that, you will become more inward and turn away from the outer. A time for consolidation.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

On Upper Meridian: Aug 09, 2029

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter, toward inner needs and security. You will find yourself more concerned with maintaining and strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

Major Transits

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

A time to review the social scene and relationships in particular. A renewed perception of commitment could lead to marriage or some form of yoga -- bringing it all together.
